WELCOME TO BALAJI METAL INDUSTRIES

We are proud to introduce ourselves as one of the leading manufacturers and suppliers of industrial components, serving major sectors such as sponge iron, cement, and power plants across India. With a strong presence in the industry, we specialize in:

- Vibrating Screen Mesh in Stainless Steel Grades SS 304/310
- Spring Steel Wire Mesh (Grade-1) sourced from Usha Martin/Tata
- Conveyor Idlers and Spares
- Stainless Steel Anchors – all types
- Precision Casting Items

Located in Bilaspur, our manufacturing facility is equipped with advanced machinery and managed by skilled professionals. Our infrastructure allows us to maintain high-quality standards, timely delivery, and competitive pricing.

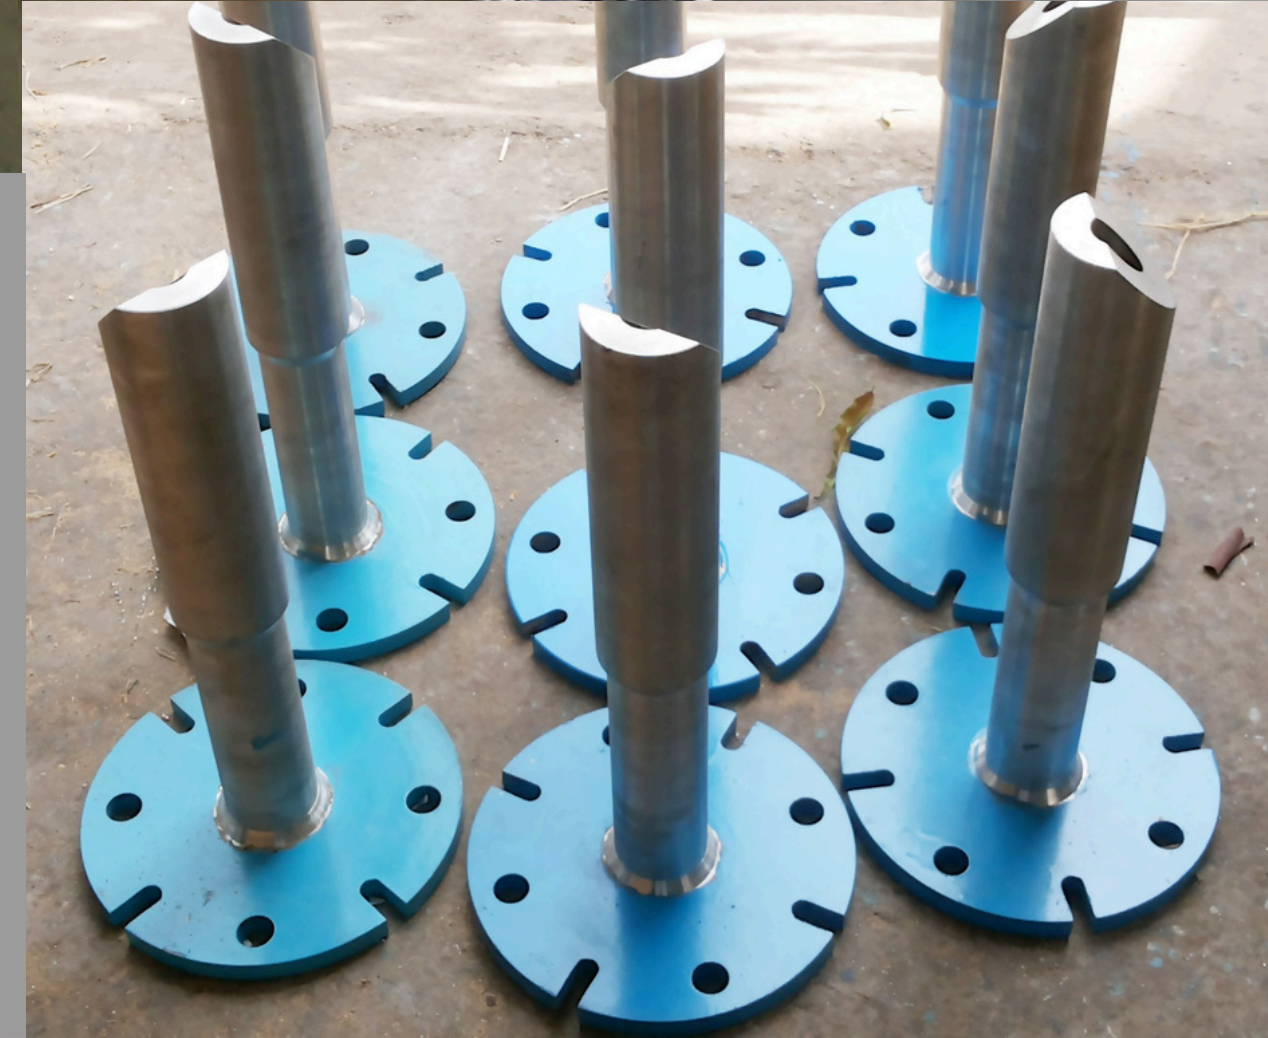

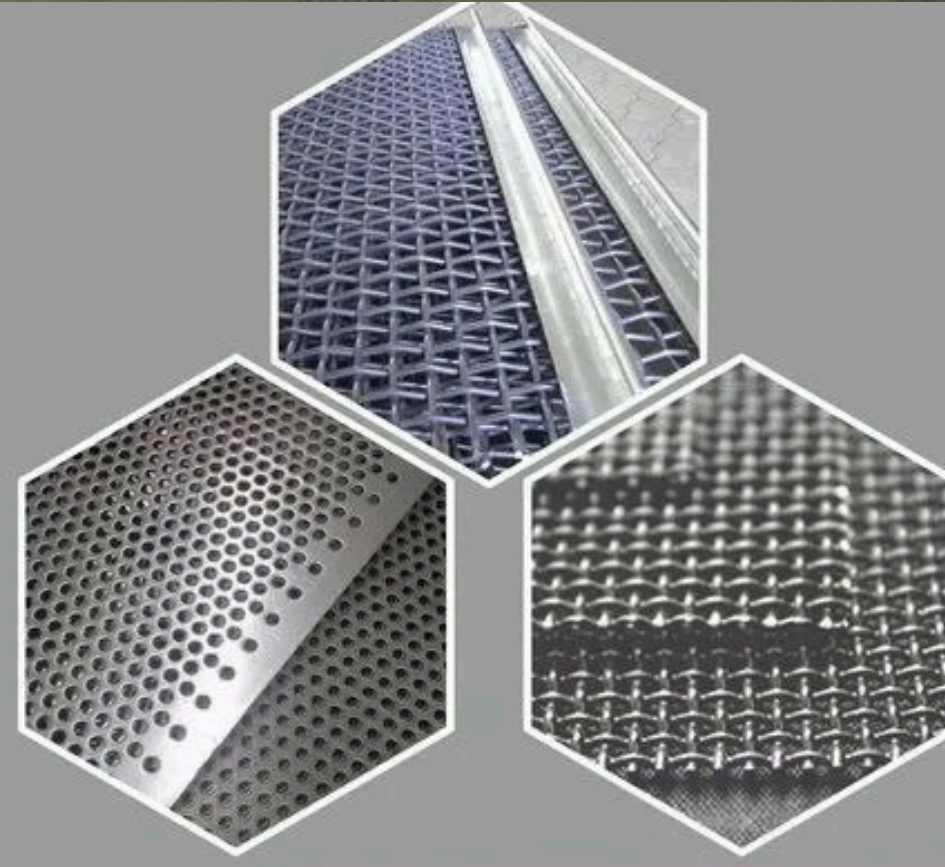

We take pride in our flexibility and innovation, enabling us to design and develop custom solutions tailored to our clients' needs. This customer-focused approach has earned us the trust of industries across the nation.

With a commitment to quality, service, and continuous improvement, we aim to be your reliable partner in industrial solutions.

OUR PRODUCTS

We supply premium Vibrating Screen Mesh in SS 304/310 and Spring Steel Grade-1 (Usha Martin/Tata), along with Conveyor Idlers, spares, SS anchors of all types, and precision Casting Items. Designed for sponge iron, cement, and power plants, our products ensure durability, performance, and reliability in heavy-duty industrial environments.

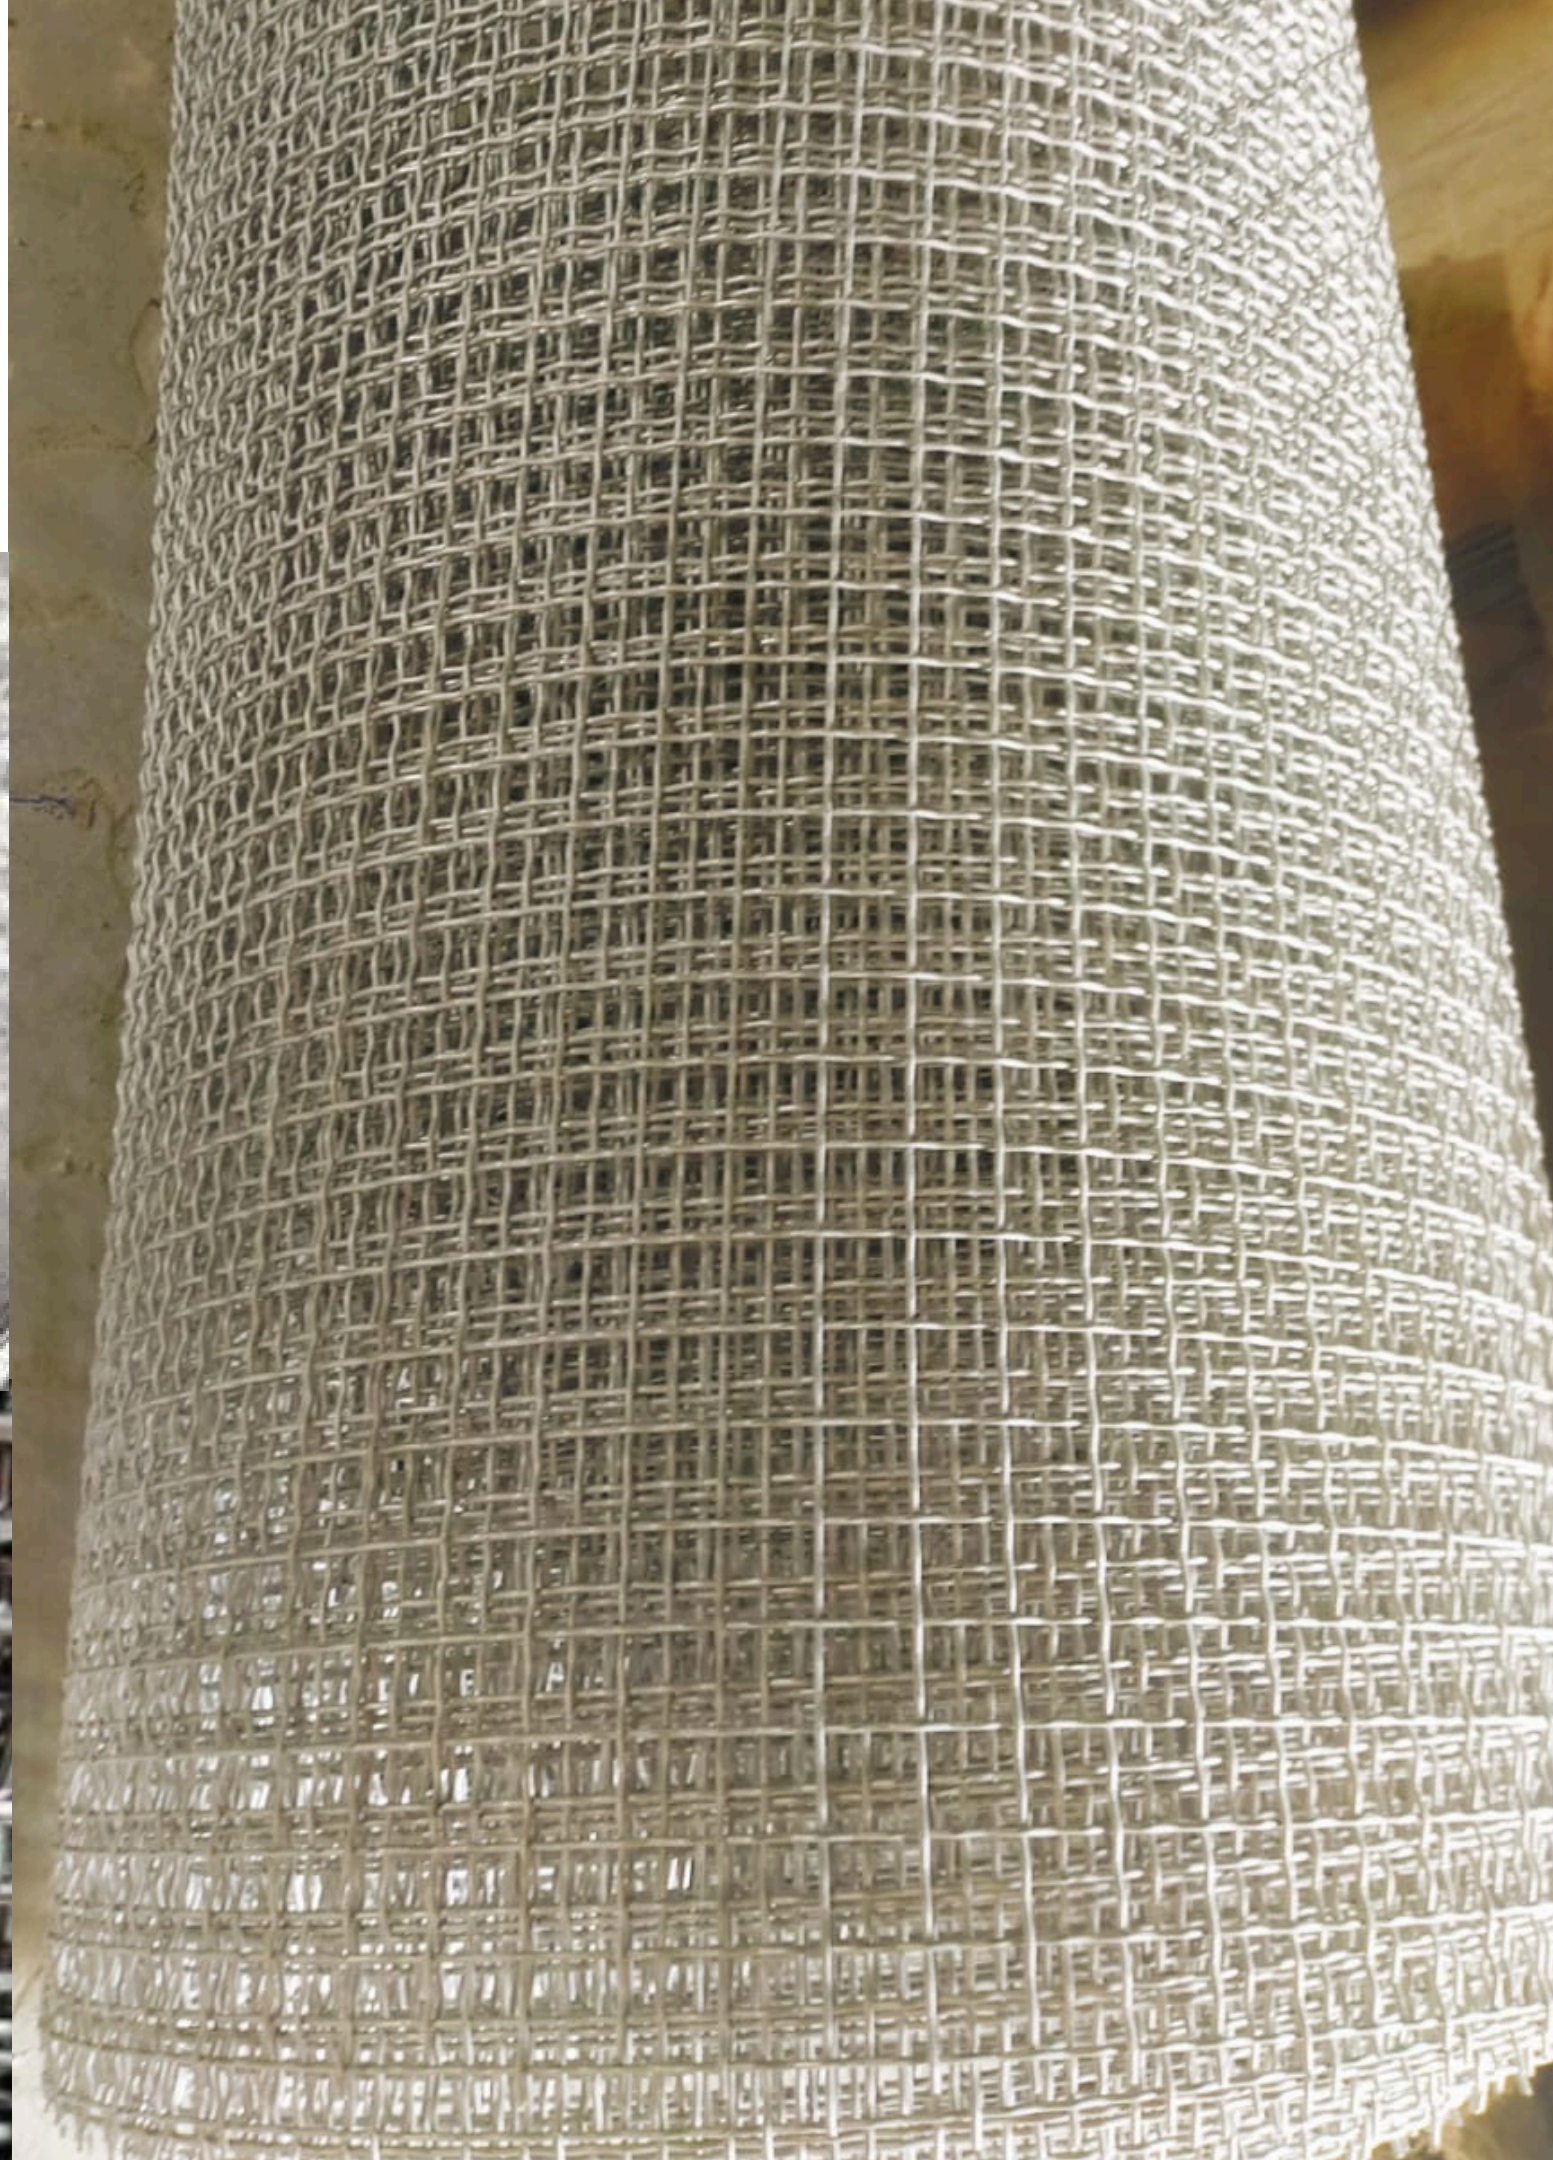

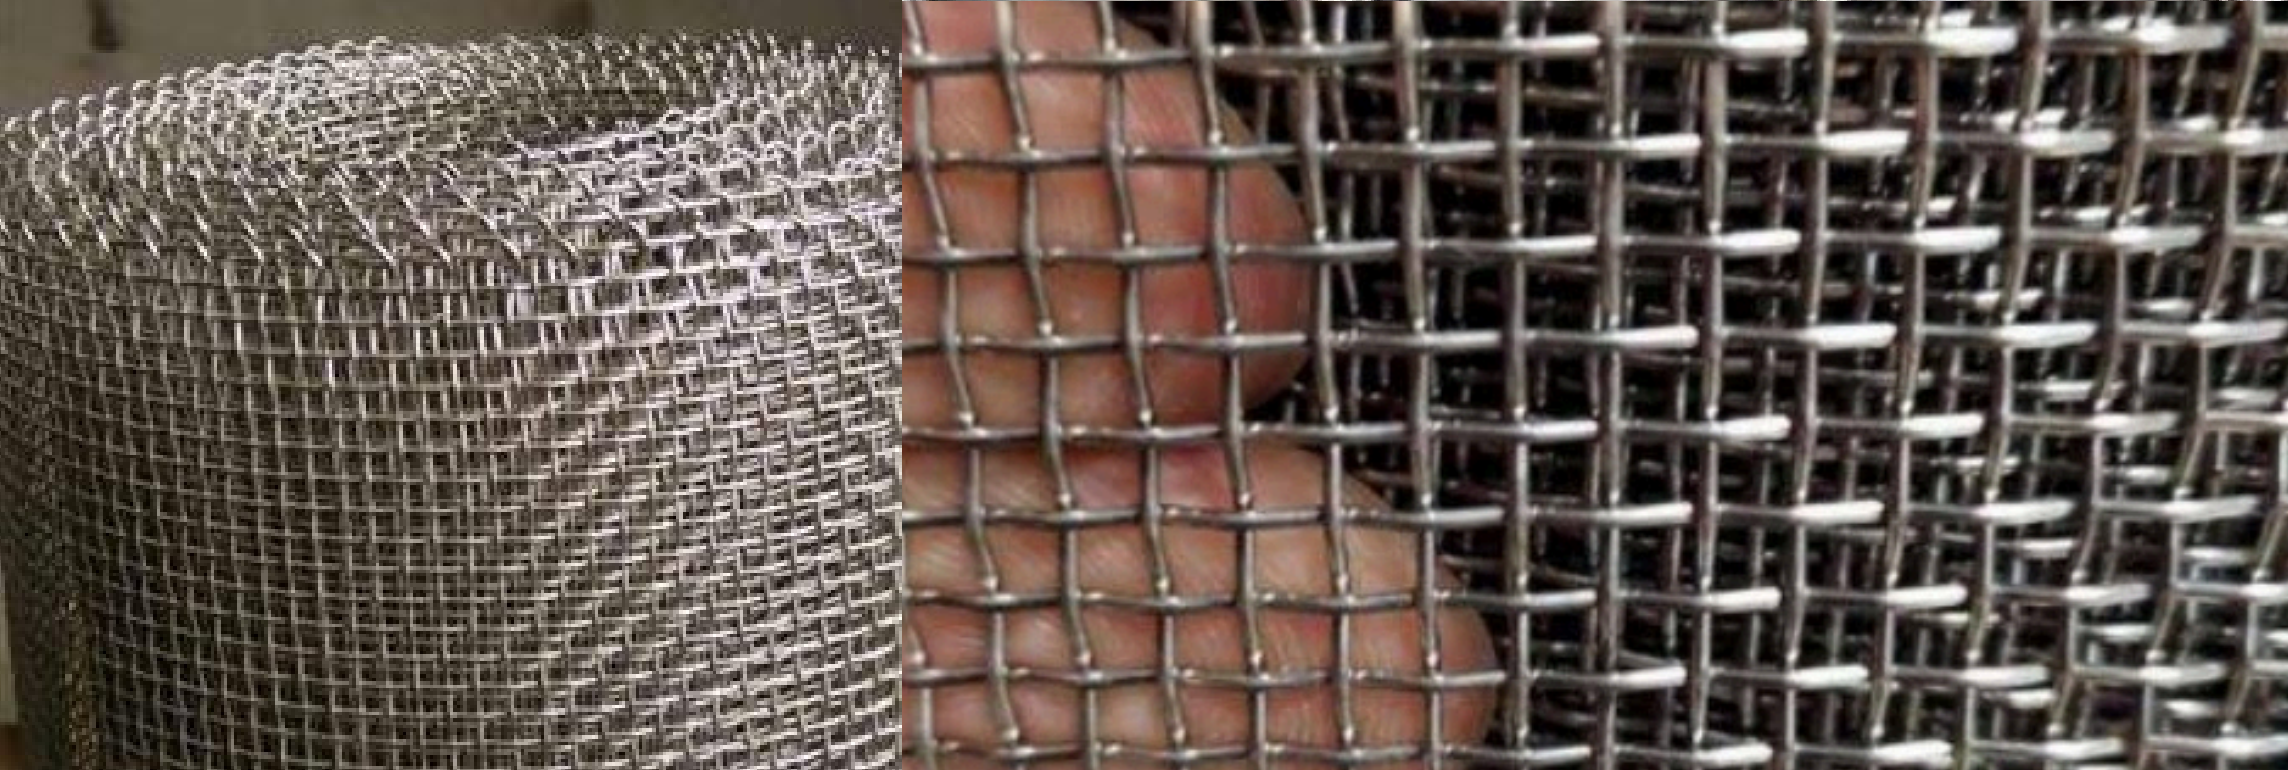

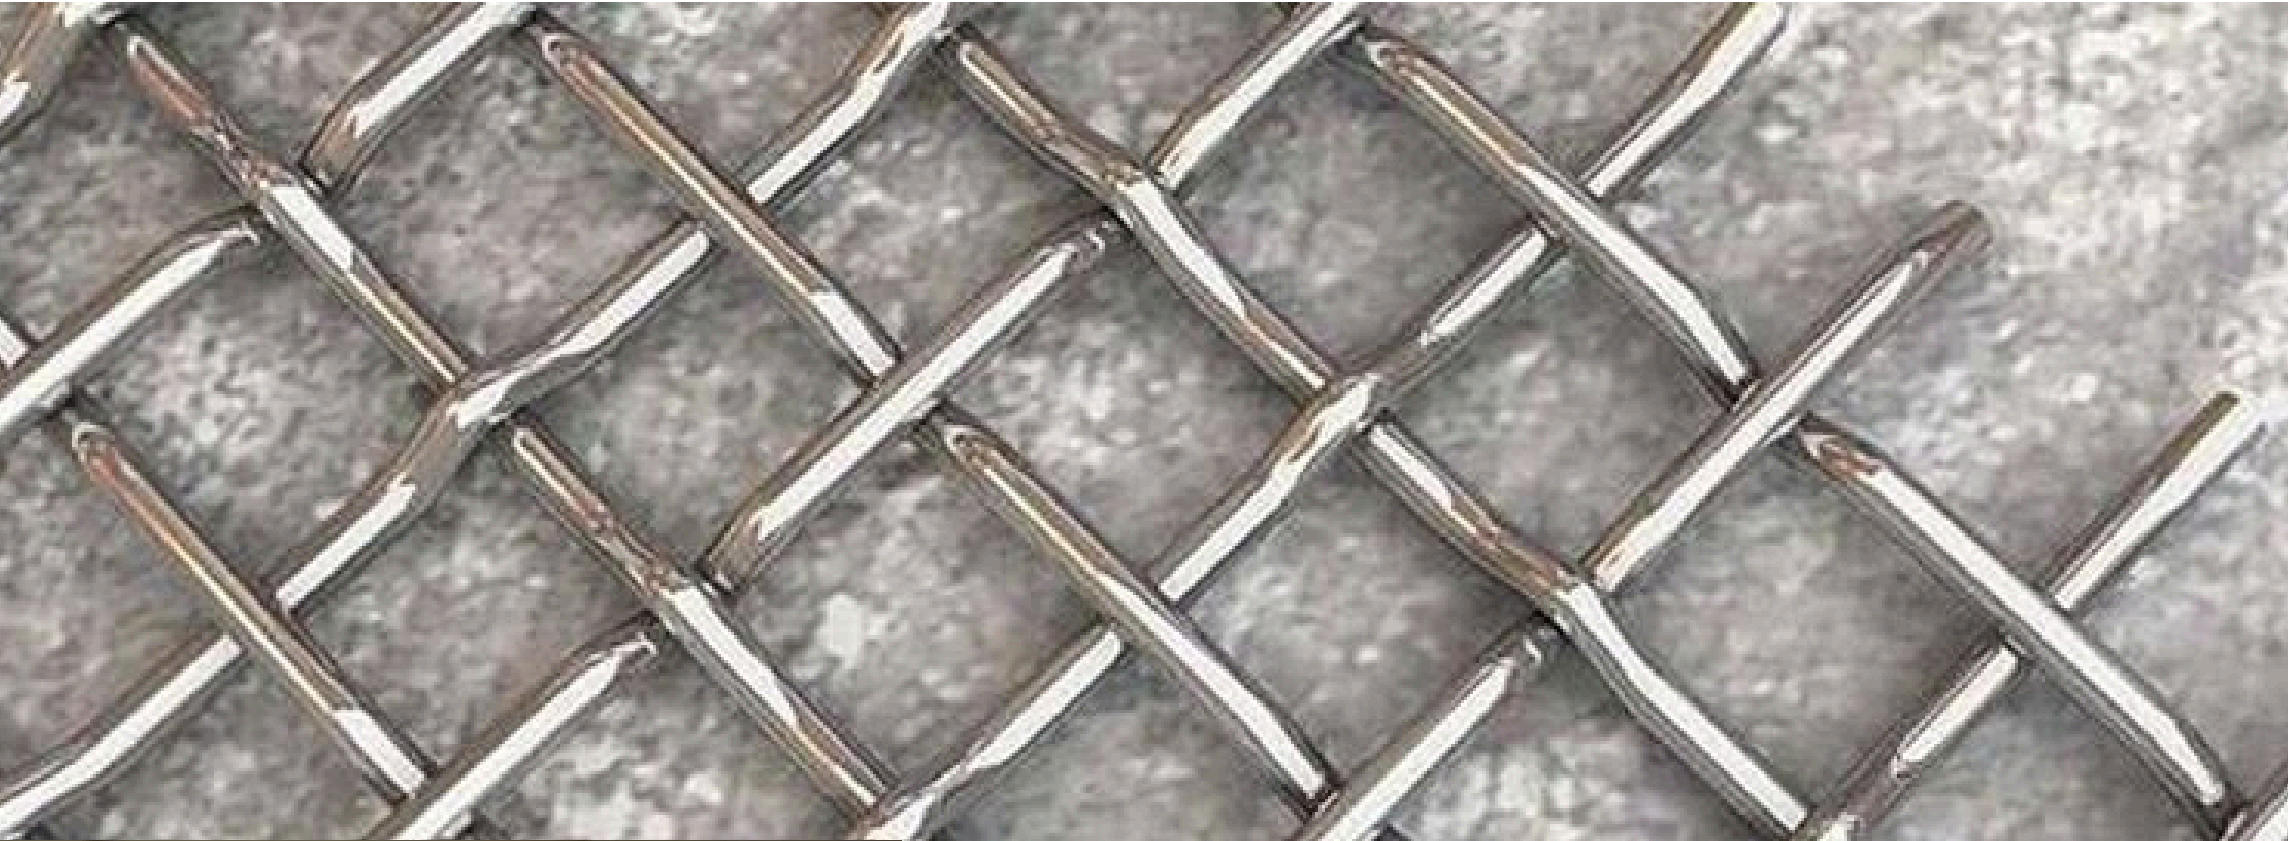

SPRING STEEL SCREEN CLOTHS

We offer durable Wire Mesh/Vibrating Screens/ Screen cloths made from Spring Steel Grade-1, also available in SS 304 and SS 310. These are available in all sizes and are ideal for use in mining, cement, sponge iron, and power plants.

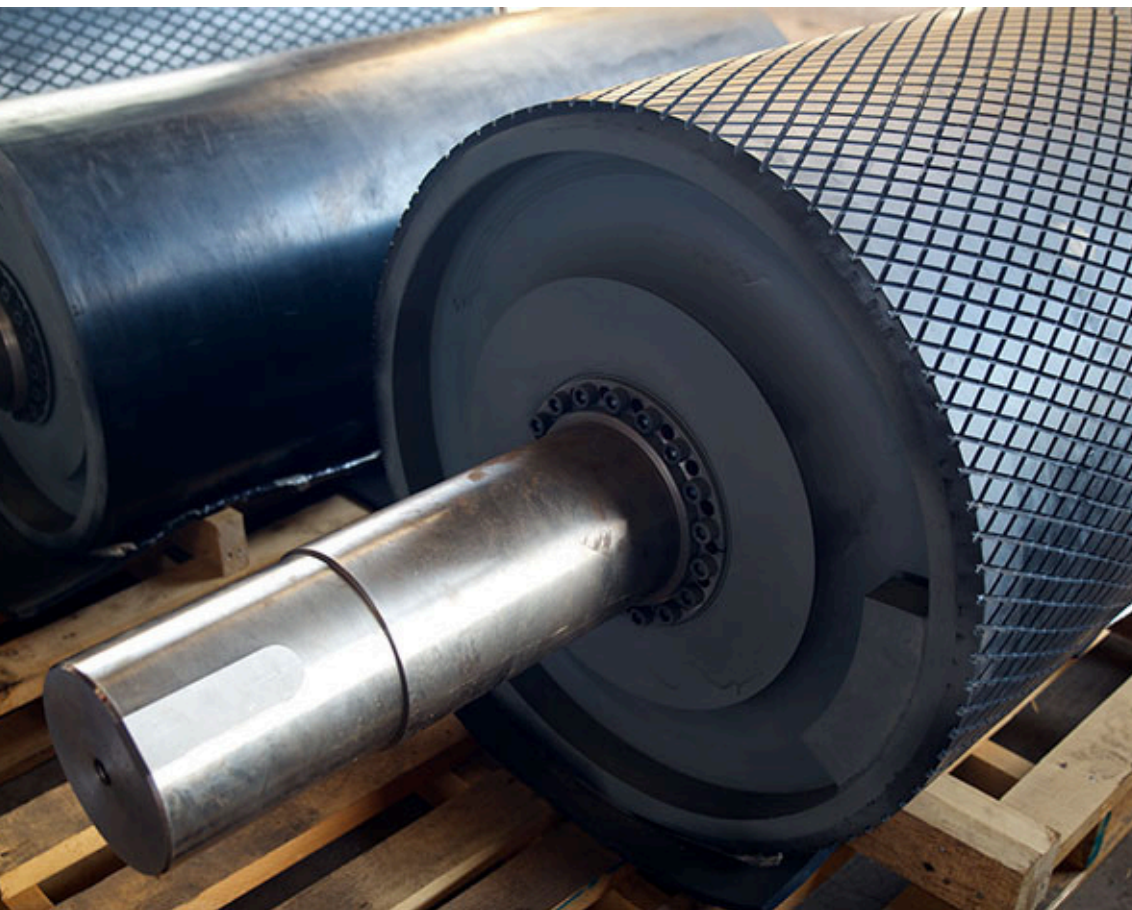

STAINLESS STEEL WIREMESH

We offer high-quality Stainless Steel Wire Mesh made from SS 304 and SS 310 grades, known for their strength, corrosion resistance, and long-lasting performance. Available in various sizes and specification.

CONVEYOR IDLER, FRAME AND PULLEYS

Our Idler Rollers are made from high-grade ISI-certified pipes and built to handle thrust loads effectively. Fitted with premium quality bearings, they ensure smooth operation and long service life. A dust-proof sealing system enhances durability and keeps performance consistent in tough working conditions.

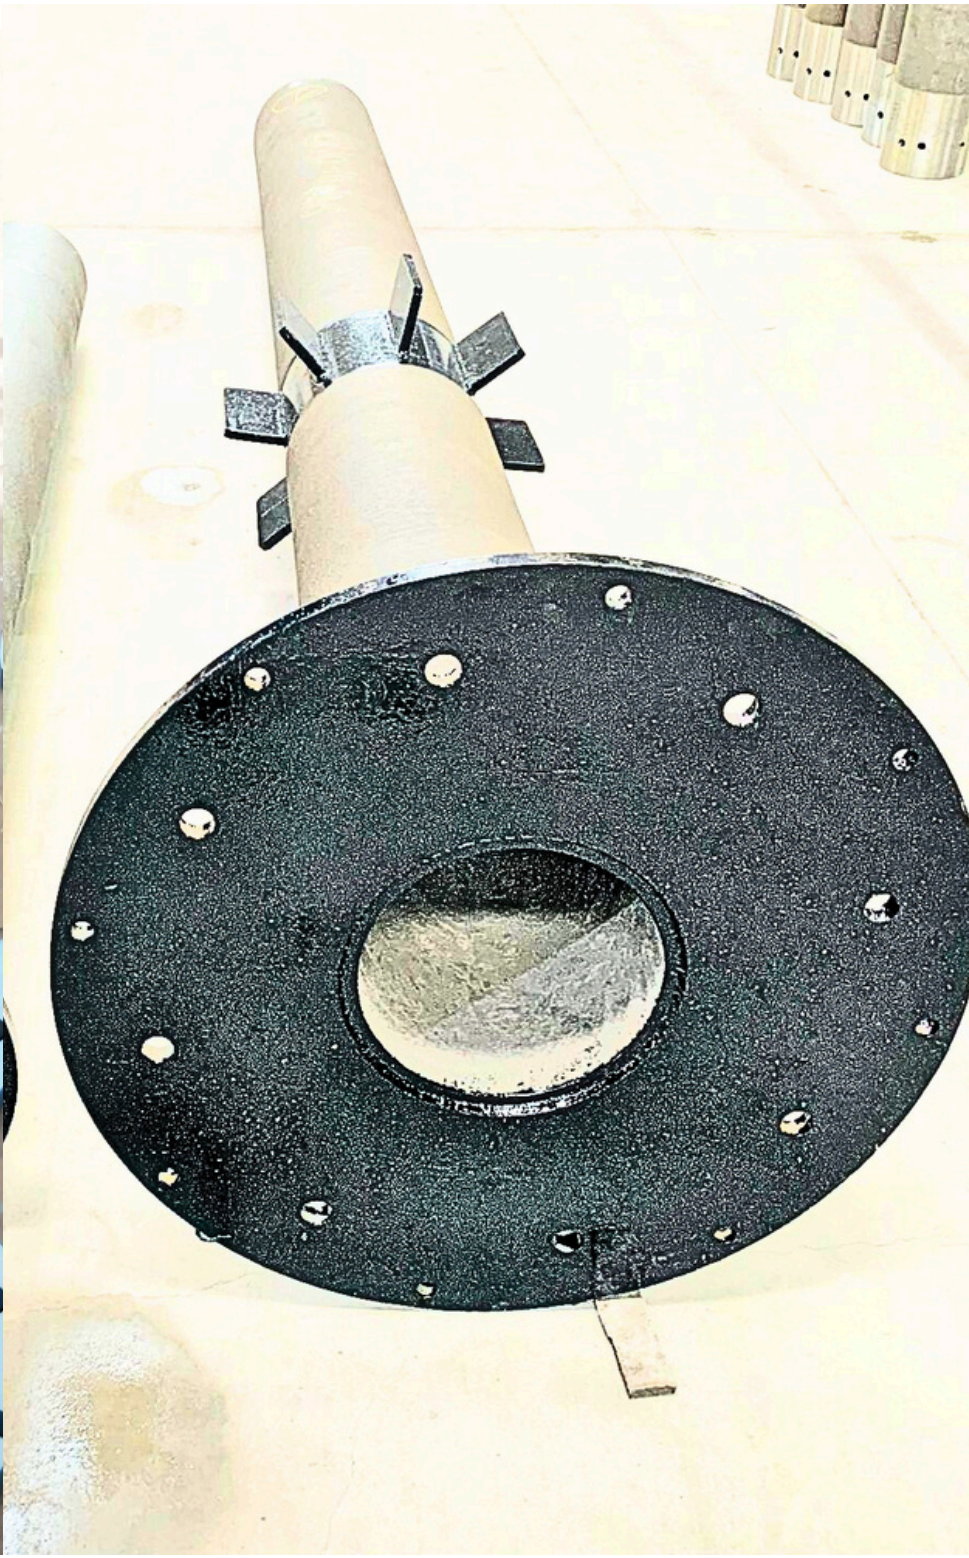

KILN REFRACTORY ANCHORS

We supply SS Anchors and Cleats in various types such as V Type, Y Type, and UV Type, made from SS 304 and SS 310 grades. Available in all sizes, these are ideal for use in high-temperature and corrosive industrial environments, ensuring strength and long-lasting support.

CASTING AND MECHANICAL ITEMS

We offer a wide range of SS 310 components including Thermowells, Protection Tubes, HK 40 Coal Throw Pipes, Feed Tubes, Air Tubes, Central Burner Pipes, and Radiation Heat Protection Tubes.

GET IN TOUCH

We'd love to hear from you! Whether you have a question, feedback, or a business inquiry, our team is here to help. Reach out to us anytime—we're just a message away. Let's build something great together.
